

INGENICO MOVE/5000 REDEFINING SALES ON-THE-GO

BUILT FOR MOBILITY

TOP-NOTCH SECURITY

ALL PAYMENT OPTIONS

FASTER NFC PAYMENTS

INTUITIVE INTERFACE

A SMART, WIRELESS DEVICE DESIGNED FOR EVERY MERCHANT ENVIRONMENT

Whether you operate a taxi, restaurant or mobile business, the Ingenico Move/5000 will blow you away! Not only is it portable and secure, it also supports all forms of electronic payment and delivers a top-notch payment experience to you and your customers.

No matter where your business takes you, the Move/5000 covers the full spectrum of wireless connectivity. Accept payments on the shop floor, at events or right in your vehicle, all while reducing communication costs.

The best part? The Move/5000 provides an amazing user experience through a remarkably intuitive interface, featuring powerful multimedia capabilities and a large 3.5-inch colour touchscreen.

There's no question about it, the Ingenico Move/5000 is the most powerful wireless device on the market today!

BOOST SALES AND ENHANCE YOUR CUSTOMERS' EXPERIENCE

Designed for Mobility: Multiple options for wireless communication including WiFi, Bluetooth, and 4G. This ensures payment availability and reduces costs.

Top-Notch Security: PCI-PTS 5.x certified and satisfies the latest security requirements. The Telium TETRA OS uses the latest cryptographic schemes with future-proof key length.

Multiple Payment Options: Let your customers choose how they want to pay: EMV Chip & PIN, chip & sign, magstripe, signature capture, and NFC/contactless.

Seamless NFC Payments: Offer your customers a seamless experience through a dedicated card-reader zone and faster transaction flows.

Telium TETRA Operating System: It embeds the best security mechanisms to protect transaction privacy, while providing support for HTML5 web-based rich media business apps.
